THE ANNALS OF APPLIED BIOLOGY

EDITED BY
W. B. BRIERLEY
AND
C. T. GIMINGHAM

VOLUME 27

CAMBRIDGE
AT THE UNIVERSITY PRESS
1940

PRINTED IN GREAT BRITAIN

CONTENTS

No. 1 (February 1940)

PAGE

1. The Internal Temperatures of Fruit Tree Buds. III. Trials with Humidified Heat for the Control of Frost Damage. By John Grainger. (With 4 Text-figures) 1

2. The Nutrition of Lettuces Grown as Sand Cultures Under Glass. By R. M. Woodman 5

3. The Ecology of the Larger Fungi. IV. The Seasonal Frequency of Grassland Fungi with Special Reference to the Influence of Environmental Factors. By W. H. Wilkins and Sheila H. M. Patrick. (With 5 Text-figures) 17

4. The Influences of Sowing Depth and Moisture on Smut Diseases, and the Prospects of a New Method of Control. By G. Howard Jones, M.A. and Abd El Ghani Seif-El-Nasr. (With 11 Text-figures) 35

5. The Initiation of Infection by Bunt of Wheat (*Tilletia caries*). By J. G. Churchward. (With Plate 1 and 3 Text-figures) 58

6. Some Notes on a Suspected Variant of *Solanum* Virus 2 (Potato Virus *Y*). By Kenneth M. Smith, F.R.S. and R. W. G. Dennis, Ph.D. (With Plate 2) . 65

7. The Biology of the Chrysanthemum Midge in England. By H. F. Barnes, M.A., Ph.D. (With Plate 3 and 5 Text-figures) 71

8. The Detection of Wood-Boring Insects by Means of X-rays. By Ronald C. Fisher, B.Sc., Ph.D. and H. S. Tasker, B.A., A.I.C. (With Plates 4 and 5 and 1 Text-figure) 92

9. The Toxicity of Sulphur Dioxide to the Bed-bug *Cimex lectularius* L. By H. C. Gough. (With 3 Text-figures) 101

10. Some Preliminary Experiments with β-butoxy-β'-thiocyanodiethylether as an Industrial Insecticide. By C. Potter, Ph.D. and A. J. Musgrave, B.Sc. . . 110

11. Materials for a Study in Animal Competition. The Fauna of the Sewage Bacteria Beds. By LL. Lloyd, J. F. Graham and T. B. Reynoldson. (With 4 Text-figures) 122

12. The Ecology of Activated Sludge in relation to its Properties and the Isolation of a Specific Soluble Substance from the Purified Effluent. By N. W. Barritt, M.A. (With Plate 6 and 1 Text-figure) 151

13. Reviews 157

No. 2 (May 1940)

1. Some Recent Contributions by English Workers to the Development of Methods of Insect Control. By C. T. Gimingham, B.Sc., F.I.C. 161

2. The Growth and Anatomical Structure of the Carrot (*Daucus carota*) as affected by Boron Deficiency. By Katherine Warington. (With Plates 7 and 8 and 7 Text-figures) 176

PAGE

3. Some Root-forming Substances, in relation to one another, to Plant Metabolism, and to Growth. By M. A. H. TINCKER. (With 1 Text-figure) 184

4. Lightning Injury to Potato Tubers. By G. SAMUEL. (With Plate 9) . . 196

5. Soil Conditions and the Take-all Disease of Wheat. V. Further Experiments on the Survival of *Ophiobolus graminis* in Infected Wheat Stubble buried in the Soil. By S. D. GARRETT 199

6. Experiments on the Control of Basal Rot of Narcissus Bulbs caused by *Fusarium bulbigenum* Cke and Mass. With Notes on *Botrytis narcissicola* Kleb. By LILIAN E. HAWKER 205

7. The Identification of certain Viruses found Infecting Leguminous Plants in Great Britain. By G. C. AINSWORTH. (With Plates 10 and 11) 218

8. Evidence against the Hypothesis that certain Plant Viruses are Transmitted Mechanically by Aphides. By M. A. WATSON and F. M. ROBERTS . . . 227

9. The Strawberry Aphis—*Pentatrichopus* (*Capitophorus*) *fragariae* Theob., with Notes on *P. potentillae* Walk. and *P. tetrarhodus* Walk. By I. THOMAS and F. H. JACOB. (With 5 Text-figures) 234

10. On the Stem and Bulb Eelworm (*Anguillulina dipsaci* Kühn) with Special Reference to its Occurrence on Weeds of Arable Land. By L. R. JOHNSON, M.Sc. 248

11. Laboratory Tests with Liquid Insecticides on the Eggs of the Bed-bug, *Cimex lectularius* L. By S. CALLAWAY and A. J. MUSGRAVE. (With 10 Text-figures) . 252

12. The Insecticidal Properties of Certain Species of *Annona* and of an Indian Strain of *Mundulea sericea* ("Supli"). By F. TATTERSFIELD and C. POTTER. (With 1 Text-figure) 262

13. The Problem of the Evaluation of Rotenone-containing Plants. V. The Relative Toxicities of Different Species of Derris. By J. T. MARTIN. (With 1 Text-figure) 274

14. The Maintenance of High Atmospheric Humidities for Entomological Work with Glycerol-Water Mixtures. By C. G. JOHNSON. (With 2 Text-figures) . . 295

15. Reviews 300

16. Report of the Council of the Association of Applied Biologists for the year 1939 302

17. Report of the Hon. Treasurer for the year ending 31 December 1939 . . 303

No. 3 (AUGUST 1940)

1. The Chemical Composition of the Plant Growing-point and its Relation to the Daily Light Exposure. By GEORGE FREDERICK SHEARD. (With 2 Text-figures) . 305

2. Metabolism and Flowering. By JOHN GRAINGER. (With 9 Text-figures) . 311

3. Soil Conditions and the *Fusarium culmorum* Seedling Blight of Wheat. By C. I. SHEN, PH.D. 323

4. Observations on the Disease of Sea Lyme-Grass (*Elymus arenarius* L.) caused by *Ustilago hypodytes* (Schlecht.) Fries. By T. E. T. BOND, PH.D. (With Plates 12 and 13 and 3 Text-figures) 330

PAGE

5. The Control of Narcissus Leaf Diseases. I. White Mould and Fire on "Golden Spur". By P. H. Gregory 338

6. Studies on the Feeding Methods and Penetration Rates of *Myzus persicae* Sulz., *Myzus circumflexus* Buckt., and *Macrosiphum gei* Koch. By F. M. Roberts. (With Plates 14 and 15) 348

7. A Quantitative Study of the Interaction of Viruses in Plants. By T. S. Sadasivan. (With Plate 16 and 1 Text-figure) 359

8. A Study of the Zinc-polluted River Ystwyth in North Cardiganshire, Wales. By J. R. Erichsen Jones, Ph.D. (With 4 Text-figures) 368

9. The Moisture Balance of the Living Fleece in Relation to Blowfly Myiasis, with some Remarks on the Australian and British Conceptions of Susceptibility. By John MacLeod 379

10. Aphis Migration. An Analysis of the Results of Five Seasons' Trapping in North Wales. By I. Thomas and E. J. Vevai. (With 5 Text-figures) . . . 393

11. Factors Influencing the Abundance and Size of *Psychoda* Species in Sewage Bacteria Beds. By W. H. Golightly, Ph.D. (With 1 Text-figure) . . . 406

12. Observations on a Disease of *Scilla campanulata* Ait. due to the Stem and Bulb Eelworm, *Anguillulina dipsaci* Kühn. By E. E. Edwards, M.Sc. (With Plates 17 and 18) 422

13. Proceedings of the Association of Applied Biologists. Efficiency with economy in the control of plant diseases and pests. I. The General Problem and the Transition to War Conditions. By H. Martin. II. Protective Fungicides. By M. H. Moore. III. Some Entomological Aspects of the Problem. By S. G. Jary. IV. Some Factors Determining the Efficiency of Spraying Operations. By C. Davies. V. Some Practical Aspects of the Spraying of Fruit. By A. J. Wooldridge 433

14. Reviews 441

No. 4 (November 1940)

1. The Effect of the Concentration of the Culture Solution on Vegetables Grown in Sand. By R. M. Woodman 445

2. The Effect upon the Growth of Plants of Watering with Solutions of Plant-Growth Substances and of Seed Dressings containing these Materials. By W. G. Templeman and C. J. Marmoy (*née* Townend) 453

3. The Control of Narcissus Leaf Diseases. II. The Effect of Mould on Flower and Bulb Crop. By P. H. Gregory. (With Plates 19 and 20 and 7 Text-figures) 472

4. *Botrytis* Disease of Lettuce, its Relation to Damping-off and Mildew, and its Control by Pentachloro-nitrobenzene Dust. By M. J. Smieton and W. Brown. (With Plate 21 and 1 Text-figure) 489

5. *Bacterium rhaponticum* (Millard) Dowson, a Cause of Crown-Rot Disease of Rhubarb. By G. Metcalfe 502

PAGE

6. The Ecology and Population Dynamics of the Wild Rabbit (*Oryctolagus cuniculus*). By H. N. SOUTHERN, M.A., F.Z.S. (With Plate 22 and 2 Text-figures) . 509

7. Sheep Blow-Fly Investigations. VIII. Observations on Larvicides and Repellents for Protecting Sheep from Attack. By R. P. HOBSON, B.Sc., PH.D. . 527

8. Gall Midges (Cecidomyidae) affecting Grass-Seed Production in Mid-Wales and West Shropshire, together with Descriptions of Two New Species. By D. P. JONES, PH.D. 533

9. Studies on the Biology of the Death-Watch Beetle, *Xestobium rufovillosum* De G. III. Fungal Decay in Timber in Relation to the Occurrence and Rate of Development of the Insect. By RONALD C. FISHER, B.Sc., PH.D. 545

10. Aerobic Denitrification. By JANE MEIKLEJOHN. (With 8 Text-figures) . 558

11. Reviews 574

INDEX OF AUTHORS

PAGE

AINSWORTH, G. C. The Identification of certain Viruses found Infecting Leguminous Plants in Great Britain. (With Plates 10 and 11) 218

BARNES, H. F. The Biology of the Chrysanthemum Midge in England. (With Plate 3 and 5 Text-figures) 71

BARRITT, N. W. The Ecology of Activated Sludge in Relation to its Properties and the Isolation of a Specific Soluble Substance from the Purified Effluent. (With Plate 6 and 1 Text-figure) . . 151

BOND, T. E. T. Observations on the Disease of Sea Lyme-Grass (*Elymus arenarius* L.) caused by *Ustilago hypodytes* (Schlecht.) Fries. (With Plates 12 and 13 and 3 Text-figures) . . . 330

BROWN, W. *See* SMIETON, M. J. 489

CALLAWAY, S. and MUSGRAVE, A. J. Laboratory Tests with Liquid Insecticides on the Eggs of the Bed-bug, *Cimex lectularius* L. (With 10 Text-figures) 252

CHURCHWARD, J. G. The Initiation of Infection by Bunt of Wheat (*Tilletia caries*). (With Plate 1 and 3 Text-figures) 58

DAVIES, C. Efficiency with Economy in the Control of Plant Diseases and Pests. IV. Some Factors Determining the Efficiency of Spraying Operations 439

DENNIS, R. W. G. *See* SMITH, KENNETH M. 65

EDWARDS, E. E. Observations on a Disease of *Scilla campanulata* Ait. due to the Stem and Bulb Eelworm, *Anguillulina dipsaci* Kühn. (With Plates 17 and 18) 422

FISHER, RONALD C. Studies on the Biology of the Death-Watch Beetle, *Xestobium rufovillosum* De G. III. Fungal Decay in Timber in Relation to the Occurrence and Rate of Development of the Insect 545

—— and TASKER, H. S. The Detection of Wood-Boring Insects by Means of X-rays. (With Plates 4 and 5 and 1 Text-figure) 92

GARRETT, S. D. Soil Conditions and the Take-all Disease of Wheat. V. Further Experiments on the Survival of *Ophiobolus graminis* in Infected Wheat Stubble buried in the Soil 199

GIMINGHAM, C. T. Some Recent Contributions by English Workers to the Development of Methods of Insect Control 161

GOLIGHTLY, W. H. Factors Influencing the Abundance and Size of *Psychoda* Species in Sewage Bacteria Beds. (With 1 Text-figure) 406

GOUGH, H. C. The Toxicity of Sulphur Dioxide to the Bed-bug *Cimex lectularius* L. (With 3 Text-figures) 101

GRAHAM, J. F. *See* LLOYD, LL. and REYNOLDSON, T. B. 122

GRAINGER, JOHN. The Internal Temperatures of Fruit Tree Buds. III. Trials with Humidified Heat for the Control of Frost Damage. (With 4 Text-figures) 1

—— Metabolism and Flowering. (With 9 Text-figures) 311

GREGORY, P. H. The Control of Narcissus Leaf Diseases. I. White Mould and Fire on "Golden Spur" 338

—— The Control of Narcissus Leaf Diseases. II. The Effect of Mould on Flower and Bulb Crop. (With Plates 19 and 20 and 7 Text-figures) 472

HAWKER, LILIAN E. Experiments on the Control of Basal Rot of Narcissus Bulbs caused by *Fusarium bulbigenum* Cke and Mass. With Notes on *Botrytis narcissicola* Kleb. 205
